

West Coast Rangers FC

Summer Football Junior

Covid19 Guidelines 2022 Season

All Covid19 Guidelines from The Ministry of Health NZ and West Coast Rangers **MUST** be followed for this competition to be able to be held.

We should all by now know what we need to do to stay safe but while your team is attending WCR Summer Football please adhere to the following guidelines;

Always scan in the park on arrival using one of the posters around the park or the QR code here. This is an important part of the clubs Health & Safety policies and necessary for any contact tracing that may be needed.

Please bring your own drink bottle and don't share it with anyone.

If you are feeling unwell or are waiting on a test result due to Covid19 symptoms please stay at home.

Where possible please adhere to Social Distancing practises and spectators should feel free to wear a mask if social distancing can not be followed. During prize giving also allow enough space between groups for ease of access for prize winners.

Always sanitise or wash your hands after games and especially before handling any food. The changing rooms will be open for hand washing and extra toilets.

Because the majority of the players won't be vaccinated due to their age, we will be relying on adults to help keep everyone safe by what we do, so please set the example for everyone else to follow. Unless the Government changes the restrictions, we are not going to stop kids from playing because they are not vaccinated. But this means we all have to be more vigilant in following these safety procedures.
